GENERAL *Suggestions*

CHECK	ITEMS
	Raincoat
	A good hat
	Three sets of hunting clothes, khaki or camo
	A thick jacket, as it gets cold during winter evenings
	Gloves, and possibly a small scarf
	Two pairs of well-worn and comfortable walking boots with thick socks
	Personal medication
	A good camera and enough film/memory sticks
	Camcorders are welcome and remember battery recharge equipment
	Rifle and cleaning equipment (no semi-automatic rifles are allowed into the country)
	Ammunition
	Binoculars
	If you are so inclined to keep a diary of your hunting exploits, bring it along
	If hunting during our summer months (September - April), insect repellent is advised
	We make use of 220 V electrical power supply so, if necessary, please remember your converter

	Hunting rifle
	Pocket knife
	Flashlight
	Binoculars
	Water bottle
	Power adaptor/power converter

CHECKLIST

Binoculars

Most hunters prefer a roof prism binocular with a magnification of 8x to 10x and an objective lens of 25mm to 46mm. Lately, hunters are choosing mid-size binoculars with 32mm to 42mm lenses which are more ideal for dusk, night and hunting early in the morning. In case of a drop or fall from a hunting vehicle or ledge, you'll need a rugged pair that's durable such as binoculars built with rubber armor housing. Choose a pair that's O-ring sealed and nitrogen purged so you receive full waterproof and fog proof dependability. Your focal adjustment will also be an important factor. The center focus mechanism is the most popular choice of all hunters because of its ease of use.

The following information is for the first time visitor as well as the experienced hunter visiting Africa for a Safari
